P R E F A C E .

This volume (which provides references to all proceedings of the Legislative Assembly of Canada in the 4th, 5th, 6th, 7th and 8th Parliaments of Canada) is the *third* of a series embracing within its scope the Journals of the House of Assembly of Upper Canada, from the time when they were first printed (1825) to the Union of Upper and Lower Canada,—and those of the Legislative Assembly of United Canada, up to the time of the Confederation of the British North American Provinces.

The plan of the work is (with some modifications) based upon that of the General Indices to the Commons' Journals. All documents laid before the House (except Reports of Committees) will be found under "*Accounts and Papers*;" "*Addresses*" will be found under that head; and "*Committees*" are also arranged under a separate head; while all other entries are arranged and classified according to their respective subjects,—as "*Bridges*," "*Harbours*," "*Justice, Administration of*," "*Navigations*," "*Railways*," "*Roads*," "*Territorial Divisions*," &c., thus bringing the whole Legislation of the period upon a particular class of subjects under one view; at the same time, by a system of cross-references, every entry under these various sub-heads may be found at once by referring, alphabetically, in the body of the Index, to the subject to which it relates.

With a view to render as complete as possible the list of documents laid before Parliament, included under "*Accounts and Papers*," an examination was made of all the documents printed in the Appendix or Sessional Papers, and many Reports, Tables, or other Papers were found appended to them of special interest and importance, of which (as they had not been laid before the House separately) there was no mention in the Journals; these have been classified with the rest, in the Index, and reference made to them, severally, in their proper place. In some instances, also, the Statutes have been examined, for the purpose of rendering the information given with regard to a particular Bill more complete and satisfactory.

The work has been prepared under the direction of the Honorable the Speaker of the Legislative Assembly, in pursuance of a recommendation contained in the 1st Report of the Joint Committee on the Library of Parliament, presented on 1st September, 1865, and concurred in by the House.

ALFRED TODD.

92. That a Resolution of Supply (No. 11) providing for the salary of the Gentleman Usher of the Black Rod, be amended by adding a proviso that the Chaplain, Clerks, Translator, &c., receive no other further compensation for their services, (1852-3) 1096.
93. That (in amendment to a Resolution of Supply (No. 17) granting £4,500 for indemnity to Members of the Council for their attendance) the question of a change in the constitution of the Council being yet undecided, it is inexpedient to make any appropriation for the payment of the Members thereof for their attendance, (1852-3) 1096.—Again, (1854-5) 511, 1204.—(1856) 607.—That a proviso be added, that no part of the amount granted shall be paid to any Legislative Councillor in receipt of public money, either as Speaker of the Council, or as holding an office of profit under the Crown, (1854-5) 511.—That those Members only be paid, who are elected by the people, (1857) 488.
94. That (in amendment to a Resolution of Supply granting a sum of money for the Contingent Expenses of the Council) before voting a further sum for its Contingencies, the Legislative Council should be called upon to render an account of the £16,000 voted for that purpose in December last, (1854-5) 1203.—That (in amendment to a like Resolution, and one for the payment of indemnity to Legislative Councillors) large sums have been voted annually for these purposes, and £20,000 in one brief Session is wantonly extravagant, for a House of thirty Members, of whom twelve only have constituencies, and two have salaries from the Crown of £1,250 each, (1857) 487.
95. That (in amendment to a motion for a Call of the House), the Administration having intimated their intention of submitting measures relating to the Clergy Reserves, the Seigniorial Tenure, and the constitution of the Legislative Council, in the order named, it is inexpedient to depart from this course by giving priority to the last measure, until the House shall have expressed its intentions on the other important questions, (1854-5) 177.
96. Motion, that it is expedient to enact that elections be at once held for the several Districts in which no election has yet been held, under the provisions of the Act rendering the Legislative Council elective; Amendment, that it is inexpedient to agitate the question until next Session, in order that an opportunity may be afforded of judging of the working of the new organization of the Council, negatived; Main motion negatived, (1857) 67.
97. That it is expedient to amend the Act to alter the constitution of the Legislative Council, so as to provide that at the period fixed for holding the next election of Councillors, elections may be held in all the Divisions where none have yet been held, (1858) 395.
98. That (in amendment to a Resolution of Supply) all enactments requiring a pecuniary qualification in Members of the Legislative Council, ought to be repealed, (1858) 785.

II. Decisions of the Speaker, or the House, on Questions of Order or Practice :

24. A motion for referring a petition involving a grant of money not recommended by His Excellency,—and an amendment proposed thereto,—decided to be out of Order, (1852-3) 126.—Mr. Speaker declines to receive a motion tending to an appropriation of public money, which had not been recommended by His Excellency ; His decision confirmed, on appeal, (1854-5) 593.—(1862) (no appeal), 175.
25. On a motion for appointing a select committee of six Members, named therein, an objection being made to the Members being named by the mover, Mr. Speaker decides that an objection by any one Member was sufficient ; His decision confirmed by the House, on appeal, (1852-3) 127.
26. Mr. Speaker objects to the Bill to incorporate the Grand Trunk Railway Co. (at its second reading), as out of Order, it being inconsistent with the provisions of the 5th and 6th sections of the Railway Clauses Consolidation Act (yet unrepealed), which declare that no special Railway Act shall be received by the Legislature until certain requirements shall have been carried out ; His decision confirmed, on appeal, (1852-3) 248.
27. A motion that the Orders of the Day be called, objected to as out of Order ; Objection over-ruled by Mr. Speaker ; His decision confirmed, upon appeal, (1852-3) 320.—An amendment to a motion that the Orders of the Day be called, decided to be out of Order ; Decision confirmed, on appeal, (1858) 525.
28. A certain bill having, after the third reading, been re-committed, and reported without amendment, and a motion made that it do pass, an objection was raised to the motion, that it ought to appear on the Orders of a future day ; The objection over-ruled by Mr. Speaker, and his decision confirmed, on appeal, (1852-3) 892.
29. A motion being made to re-commit the L. Canada Jurors Bill, for the purpose of providing for the payment petit jurors ; Mr. Speaker declines to receive the same, on the ground that it should have originated in committee ; His decision confirmed, on appeal, (1852-3) 1057.

II. Decisions of the Speaker, &c., on Questions, &c.—*continued.*

31. An amendment proposed to an amendment, decided to be in order ; Decision confirmed, on appeal, (1854-5) 298. *Vide infra*, 70-73.
32. An Address for the immediate payment of the annual appropriations for educational and benevolent Institutions for the current year, as borne on the Estimates of the past year, having been voted on a previous day,—and notice being taken that the said Address was irregular, and contrary to the Rules of the House, the Order for the Address was rescinded, (1854-5) 179.
33. Mr. Speaker declines receiving a proposed Resolution respecting the Post-Office Bill, because no Notice had been given, and because the matter contained therein was more properly the subject of amendments, &c. ; His decision confirmed, on appeal, (1854-5) 923.
34. Notice taken, upon a question concerning the Grand Trunk Railway Co., that certain Members who had voted thereon had a personal interest (as stockholders or contractors) ; they are severally heard thereon, and state that they have no personal interest in the question ; Motions for disallowing their votes negatived, (1854-5) 968 to 972, 1030.—Again, (1856) 662, 679.—Similar proceedings upon a Bill for increasing the salaries of certain Judicial and Executive Officers, (1854-5) 1147 to 1150.—And a Member allowed to withdraw his vote, 1173.—Objection taken to the vote of a Member on the Building Societies Bill, on the ground of pecuniary interest ; Mr. Speaker decides that the interest which disqualifies must be a direct pecuniary interest, and not one in common with the rest of H.M. subjects, (1865, Aug. Sess.) 228.
35. Objection taken to the Bill to prohibit the traffic in Intoxicating Liquors, on the ground that it related to Trade, and ought therefore to have originated in committee of the whole ; Objection sustained by Mr. Speaker, and confirmed by the House, (1854-5) 957.—Objection taken to the Bill to amend the Acts relating to Excise Duties (on the question for going into committee of the whole),—that inasmuch as it affects Trade, and imposes a new tax on the people, it should have originated in committee of the whole ; Mr. Speaker decides that it does not affect Trade, as meaning Commerce,—and that the objection to the mode of originating the bill, should have been taken upon the second reading, (1865, Aug. Sess.) 243.—Objection taken (at the second reading) that the Bill to extend the time for payment of the Municipal Loan Fund debt of the County of Perth, is out of order, inasmuch as it affects the public revenue ; Mr. Speaker decides that it should have originated in a committee of the whole, and is therefore not in order, (1866) 298.
36. Objection taken (at the third reading) to the Bill to enable compensation to be made to the heirs of the late Mrs. McKay, for the erroneous issue of letters patent for lands to which she was entitled,—that it ought to have originated in a committee of the whole ; Mr. Speaker decides that the bill imposed no new burthens, but merely enabled the Government to deal with the case through the 23rd section of the Land Act, (1866) 371.
37. A motion being proposed to the like effect as one upon which the sense of the House has been already taken, it is objected to by Mr. Speaker, as irregular ; His objection confirmed, on appeal, (1854-5) 1148.
38. An amendment being offered to a Resolution of Supply appropriating £50,000 for public buildings in Quebec, that a former Resolution selecting Quebec for the Seat of Government be rescinded, and that an Address be voted to His Excellency in favor of the erection of public buildings in Montreal instead, the said amendment is objected to, as out of order ; Objection over-ruled by Mr. Speaker, (1856) 722.
39. Objection made to a motion for leave to introduce a Bill to amend the Act incorporating the College of Assumption, that the same was not in order, because no motion had been made to suspend the Rule relative to Notice (the Committee on Standing Orders having reported that Notice was not required) ; Mr. Speaker decides that it is in order ; His decision confirmed, on appeal, (1858) 447.
40. Objection made to a motion, on the ground that it was not on the Notice paper ; Over-ruled by Mr. Speaker, inasmuch as the usual two days' notice had been given ; His decision confirmed, on appeal, (1858) 499.
41. Objection raised to a motion to adjourn certain Election Committees on the House continuing in session at the hour appointed for the meeting thereof,—that the said Committees had not asked leave to adjourn ; Mr. Speaker decides that by the 78th section of the Election Petitions Act, the House may adjourn the sittings of an Election Committee ; His decision confirmed, on appeal, (1858) 512.
42. The House having continued sitting until after the hour of meeting on the following day, question raised that a new sitting should commence, and the Orders of this Day be proceeded with ; Mr. Speaker decides that there having been no adjournment, the Orders of yesterday must be proceeded with ; Decision confirmed, on appeal, (1858) 515.
43. An amendment being proposed to a motion,—to add thereto the words "and that the House do meet on Saturday next, at 11 o'clock," and objection being made to the same because no Notice was given, Mr. Speaker decides that it being an amendment, and not a substantive motion, no Notice is required ; Decision confirmed, on appeal, (1858) 523.

II. Decisions of the Speaker, &c., on Questions, &c.—*continued.*

44. Mr. Speaker objects to a second amendment being proposed to a motion "That the Speaker do now leave the Chair" for the House to go into committee of Supply, on the ground that the practice of the Imperial Parliament was to permit but one amendment to be moved to such a question; His objection sustained, on an appeal, (1858) 733.—A like decision, (1864) 389.
45. A motion that the payment to the Clerk of £200 by the petitioner in the Richelieu Controverted Election, be declared equivalent to the Recognizance which he had offered, and which has been pronounced insufficient by Mr. Speaker, decided to be out of order, inasmuch as by the Election Petitions Act no Election Petition could be so referred after the Speaker had decided the Recognizance to be objectionable; Decision confirmed, on appeal, (1858) 839.
46. A certain Order of the Day called, and a motion made to take up another Order in lieu thereof; Exception taken thereto; Mr. Speaker decides that in accordance with the practice in this House and in the House of Commons, one Order can be substituted for another by way of amendment, (1864) 194.
47. Objection taken (at the second reading) to the Bill to incorporate the Ottawa and Huron Navigation Co., that it contains clauses granting public lands in aid of the Company, and ought therefore to have originated in committee of the whole; Mr. Speaker sustains the objection; Order for second reading discharged, (1864) 379.
48. Motion proposed for an Address praying His Excellency to recommend the payment of the balance due by the Government for expenses connected with the Reciprocity Treaty, incurred under an Order in Council; Notice taken that the motion was contrary to the provisions of Chap. 14, Consol. Stat. of Canada; Mr. Speaker states that according to the usages of Parliament he is not bound to decide on a question of law, (1864) 444.
49. Objection taken to a motion for an Address to Her Majesty, praying that a measure may be submitted to the Imperial Parliament, for uniting the Colonies of British N. America,—that it will result in new burthens upon the people, and ought therefore to originate in committee of the whole; Mr. Speaker over-rules the objection, on the ground that it will not involve any further action of the House after the passing of the motion, and therefore the provisions of sec. 4, Chap. 14, Consol. Stat. of Canada, and of the 88th Rule of the House, concerning the mode of originating motions for any public aid or charge upon the people, do not apply thereto, (1865, Jan. Sess.) 74.
51. A motion that a certain proposed Address be discussed from day to day immediately after Routine Proceedings, objected to, on the ground that a similar motion made the previous day is yet on the Orders of the Day, undisposed of; Mr. Speaker decides that the motion is in order, (1865, Jan. Sess.) 160.
52. The "Previous Question" moved by the mover of the main motion, (1865, Jan. Sess.) 180. Objection made, that it is not in order for the proposer of the original motion to move the Previous Question, which is in the nature of an amendment to his own motion; Mr. Speaker decides that the "Previous Question" is not an amendment, and the objection is therefore not valid; Previous Question carried in the affirmative, 191.
53. An Address to Her Majesty on the subject of a Confederation of the British N. American Provinces having passed, and a motion being proposed for the appointment of a committee to draft such Address,—and an amendment being proposed, for an Address to His Excellency to cause an appeal to be made to the people before the question is submitted to the Imperial Parliament,—Objection is made, that the amendment is not in order; Objection over-ruled by Mr. Speaker, (1865, Jan. Sess.) 198.
54. Objection taken, at the third reading of a Private Bill which had been materially amended in committee of the whole, that it ought to be referred back to the Committee on Standing Orders, to report whether the amendments are in excess of the Notice; Mr. Speaker decides that it must be referred back, (1865, Jan. Sess.) 240.—A like objection taken, in regard to amendments made by the Railway Committee; Mr. Speaker sustains the objection; Motion to refer the amendments to the Standing Orders Committee negatived, and bill read third time and passed, (1865, Aug. Sess.) 242.

II. Incidental Proceedings, 33—36.

I. Speeches of the Governor General at the opening and close of each Session :

(1852–3.)

1. *20th August*, 1852.—The Governor General (Earl of Elgin and Kincardine) rejoices at the tranquillity and advancement of the Province. Provincial Securities are rising in value. The estimated deficiency in Postal revenue has not been exceeded, notwithstanding largely increased accommodation. Measures will be submitted for aiding the sufferers by the extensive fire at Montreal ; also, for placing the Currency of British N. America on an uniform basis. He will communicate the steps he has taken for giving effect to the Railway Acts of last Session. Submits the expediency of devising means for enhancing the value of Municipal Bonds. A plan for establishing steam communication between Great Britain and the St. Lawrence will be submitted. A despatch will be communicated explaining the views of the Imperial Government respecting the Clergy Reserves. The condition of the Revenue is satisfactory. The Accounts and Estimates will be sent down. Legislation is suggested on the subjects of increasing the Representation,—Registration of Votes in U. Canada,—Extension of the Franchise,—Establishment of an Agricultural Bureau,—Abolition of the Seigniorial Tenure,—and Maintenance of indigent patients in Lunatic Asylums, 4.
 2. *14th June*, 1853.—After a Session of unusual duration, His Excellency is enabled to relieve them from further attendance. He trusts the Province will be benefited by the many important measures passed, especially that for enlarging the Representation. He thanks the Assembly for the Supplies. Disturbances have arisen at Quebec and Montreal, originating in religious controversy. The progress now making by the Province is so marked that few will question it. He trusts that the spirit of enterprise will be tempered by discretion and prudence, 1131.
-

I. Speeches of the Governor General, &c.—*continued.*

(1854.)

3. *13th June, 1854.*—His Excellency alludes to the destruction of the Parliament Buildings during the Recess. Announces the breaking out of War between Great Britain and Russia. A Treaty has been concluded between H.M. Government and the United States upon questions affecting the interests of British N. America: A measure to give effect thereto will be submitted. He will communicate a Despatch relative to the Constitution of the Legislative Council. He recommends a measure for giving earlier operation to the Act extending the Electoral Franchise. The Public Accounts and Estimates will be submitted without delay. A reduction in the Tariff is recommended. On his late visit to England, he was struck by the proofs given from all quarters, of increasing interest in Canadian affairs. The credit of Canada has attained a high position in English opinion, 2.
4. *22nd June, 1854.*—Having been disappointed in the hope that the Legislature would, without delay, pass a law for bringing into immediate operation the amended Franchise, His Excellency considers it due to the People to take steps for giving effect to the Law for increasing the Representation, before calling the attention of Parliament to questions which have long agitated the public mind; and he therefore prorogues Parliament, with a view to an immediate dissolution, 31.

(1854–5.)

5. *6th September, 1854.*—The increase in the Members of the Legislative Assembly, which came into operation at the late General Election, will give additional weight to the deliberations of the Legislature. The Imperial Parliament have passed Acts empowering this Legislature to alter the Constitution of the Legislative Council,—and to provide for the final adjustment of the Clergy Reserves question. The condition of properties held under the Seigniorial Tenure, and the settlement of questions affecting the interests of the Seigniors and Censitaires, call for early attention. The expediency of extending the advantages of the Municipal Loan Fund Act to Lower Canada, and of assimilating its Municipal Institutions to those of Upper Canada, will be submitted for deliberation. The Public Accounts and Estimates shall be sent down. The prosperous condition of the Revenue may afford an opportunity of revising the Tariff in favor of raw materials employed in ship-building and other manufactures. He will lay before them the copy of a recent Treaty between Great Britain and the United States, affecting Colonial interests,—and recommends an amendment of the Reciprocity Act of 1849, to bring it into harmony with the said Treaty. The removal of duties on Canadian products imported into the United States, will tend to increase the prosperity of the Province, 5.
6. *30th May, 1855.*—Various important measures have been passed, including the Clergy Reserves and Seigniorial Tenure Acts, the Act for giving effect to the Treaty between Great Britain and the United States, and that for the organization of the Militia. The Public Accounts will receive a more efficient audit. The reforms in the Post Office, and the free transmission of newspapers, are matters of congratulation. The alterations in the Tariff have lessened taxation and promoted trade. The Municipal system of L. Canada, and the Railway system, have required and received special consideration. He thanks the Assembly for the Supplies, and for their liberality towards the Patriotic Fund. The depression of the Lumber Trade has occasioned temporary want in portions of L. Canada, and our material prosperity suffers in some degree from the disturbed state of Europe, 1300.

(1856.)

7. *15th February, 1856.*—His Excellency (Sir Edmund Walker Head, Bart.) congratulates the Legislature on the settlement of the Clergy Reserves question: A large balance of funds arising therefrom will be available to distribute among the Municipalities. The Act for abolishing the Seigniorial Tenure in L. Canada promises an equitable adjustment of a long pending controversy. The expediency of rendering the Legislative Council elective, and of organizing a Provincial Police, will be brought under notice. The extensive lines of Railway in progress are referred to with satisfaction. Legal reforms are much needed; also, a provision for the incorporation of private institutions, for improving the construction and discipline of Gaols, and the reformation of Juvenile Offenders. The Board of Audit is already in operation. Numerous Volunteer Companies of Militia have been formed, and the Sedentary Militia organized, under the provisions of the Militia Act. An arrangement has been concluded for a line of Steamers from the St. Lawrence to England. The Timber Trade has been seriously depressed. The Public Accounts and Estimates will be sent down. The finances are in a satisfactory state; and the reductions in the Customs duties under the Reciprocity Treaty have benefited the people, and will doubtless be met by increased commerce. The requisite Supplies will be asked. The past year has been one of difficulty and conflict in Europe;

I. Speeches of the Governor General, &c.—*continued.*

(1856)—*continued.*

and we in Canada have sympathized largely in the sufferings and successes of the Allied Armies of England and France, 4.

8. *1st July, 1856.*—His Excellency refers with satisfaction to the measures for altering the constitution of the Legislative Council,—for simplifying the procedure in the Courts in U. Canada,—for amending the Seigniorial Tenure Abolition Act,—for securing to each Municipality of U. Canada its share of the Clergy Reserve Funds, and for establishing Normal Schools, &c., in L. Canada. Her Majesty's Government has given over to the Province the Ordnance Lands, and has placed their proceeds at our disposal to meet the expenses of the Militia. He thanks the Assembly for the Supplies, and trusts that the aid to the Grand Trunk Railway will secure the completion of the work. He announces the conclusion of an honorable Peace with Russia, 753.

(1857.)

9. *26th February, 1857.*—His Excellency refers to the restoration of peace in Europe, and the continuance of prosperity in this Province; also, to the opening of the Grand Trunk Railway. A survey of the River Ottawa is now in progress. Steps have been taken for promoting the settlement of the entire tract lying between Lakes Ontario and Huron and the Ottawa, and the banks of the St. Maurice might doubtless be dealt with in the same manner. Exertions have been made to diffuse in Europe a knowledge of Canada. A line of steamers between Montreal and Liverpool has been successfully established. £300,000 from the Clergy Reserves Fund has been distributed among the Municipalities, and a further amount will be available this year. The measures for the commutation of the Seigniorial Tenure have been steadily pursued. Certain questions connected with the Hudson's Bay Company having been submitted to a Committee of the House of Commons, a competent person has been sent over to watch over the interests of this Province. He acknowledges the zeal and loyalty of the people of Canada, in the formation of volunteer corps under the Militia Acts of 1855 and 1856. Measures are recommended for the regulation and supervision of Gaols and Public Institutions,—the repeal of the U. Canada Lunatic Asylum tax,—the codification of the law and procedure in civil matters in L. Canada,—the organization of the Civil Service,—the encouragement of Arts and Manufactures,—and the admission to the full rights of British subjects, of the more civilized of the Indians. The Public Accounts and Estimates will be submitted, and it will be seen that due economy has been observed, and that the increase in the Revenue has fulfilled the expectations held out. The Act altering the Constitution of the Legislative Council having received the Royal Assent, the first election of (twelve) Legislative Councillors has been held, 4.
10. *10th June, 1857.*—His Excellency thanks the Legislature for the attention given to all the measures submitted in his Speech at the opening of the Session,—the state of our Prisons and Asylums,—the administration of the Law in L. Canada,—the organization of the Civil Service,—the encouragement of Arts, &c.,—the welfare of the Indians, and the settlement of the valleys of the Ottawa and the St. Maurice, having become the subject matter of fresh legislation. The submission to Her Majesty of the final choice of a Seat of Government, will remove a constant source of local jealousy. By postponing the Provincial lien on the Grand Trunk Railway, new vigour will be infused into that undertaking. He thanks the Assembly for the Supplies. The additional grant for Ocean Steamers will give a fresh impulse to the trade of the St. Lawrence. The votes in aid of the Militia, and for improving the communication with Red River, and the repeal of the U. Canada Lunatic Asylum tax, are matters for congratulation. The working of the Legislative Council, under its new Constitution, gives strong assurance of ultimate success, 725.

(1858.)

11. *26th February, 1858.*—His Excellency refers to the extensive revolt in India, and the courage and gallantry displayed by the British Troops engaged in its suppression. Commercial relations, also, in Europe and America, have been seriously disturbed; our Banks stand almost alone in North America in continuing to meet their obligations to pay in specie. He recommends an assimilation of the Commercial Law of Upper and Lower Canada, and invites a consideration of the law relating to Imprisonment for Debt,—Insolvency in U. Canada,—Fraudulent Assignments,—Interest of Money,—the Jury Laws,—the Municipal Law of U. Canada,—the Franchise, and trial of Controverted Elections, and the Registration of Voters,—and the management of the Public Lands. The number of Emigrants arrived exceeds that in the previous year. A large extent of territory has been opened for occupation, and the opening of Roads through the forest has greatly facilitated the settlement of the same. The subject of the Fisheries deserves attention. The changes in the Judicial system in L. Canada have been brought into successful operation. The continued success

I. Speeches of the Governor General, &c.—*continued.*(1858)—*continued.*

of the Canadian line of Steamers gives promise of the establishment of a weekly line. The increasing value of our Lake Commerce is referred to. A correspondence with the Imperial Government and the Sister Colonies relative to an Inter-colonial Railway to Halifax will be communicated. The aid granted to the Grand Trunk Railway will no doubt prove sufficient for the completion of the works. The commercial difficulties have caused a diminution of the Revenue; but due economy has been used in the expenditure of the public funds. He asks for the necessary Supplies for the public service. Correspondence and papers will be submitted in relation to the Hudson's Bay Territory; also the Answer of Her Majesty to the Address on the Seat of Government, 4.

12. 16th August, 1858.—His Excellency is happy to find that the subjects recommended by him have received attention, and refers especially to the Acts for abolishing Imprisonment for Debt and preventing preferential assignments in U. Canada,—for amending the Jury Laws and the Municipal Law of U. Canada,—for facilitating the Administration of Justice in L. Canada,—for the Registration of Voters,—and for the regulation of the Fisheries. The provision for a steam mail service to Gaspé and the Lower Provinces, and for a Postal line to the Red River, will no doubt prove beneficial. The Buffalo and Lake Huron Railway has been completed. He trusts that the new Tariff of Customs, and the measure for relaxing the restriction on the Interest of Money, will work advantageously. The Assembly are thanked for the Supplies, in the expenditure of which all due vigilance and economy shall be used. The commercial crisis has not yet passed away. The Addresses to Her Majesty on the Hudson's Bay Territory and the Inter-colonial Railway shall be forwarded. During the Recess he will communicate with the Imperial and Colonial Governments in reference to a Union of the British N. American Provinces, 1042.

(1859.)

13. 18th January, 1859.—His Excellency calls attention to the question of the Seat of Government. The Act of the Canadian Parliament, appropriating the necessary funds for public buildings, and the decision of the Queen, are binding on the Provincial Government, and it will be their duty to carry out the understanding by which the Government will be transferred to Quebec for a fixed period until the necessary arrangements shall have been completed. The correspondence on the subject will be communicated. The Seigniorial Tenure Commission will shortly close its labors, and a moderate outlay beyond the grant of 1854 will satisfy all reasonable claims. The Municipal Law of L. Canada requires revisal and consolidation. Correspondence will be submitted on the subjects of a Federal Union of the British N. American Colonies,—the Hudson's Bay Company,—and the Inter-colonial Railway. The Public Accounts shall be submitted. The financial and commercial depression has not yet passed away, but symptoms of amendment have begun to appear. A highly advantageous arrangement has been effected in England respecting the Debt due to the Imperial Government, and the Sinking Fund connected therewith. Changes in the Tariff are suggested, involving the adoption of the principle of *ad valorem* duties. The Revision and Consolidation of the Statutes is nearly completed. His Excellency has summoned the Legislature at the time most convenient to the Members, 9. *Vide Governor General*, 75.
14. 4th May, 1859.—His Excellency is glad to be enabled to release Members earlier than usual from their Parliamentary labors, and congratulates them on having accomplished much useful work. They have received the despatch announcing the final settlement of the question of the Seat of Government, and will perceive the satisfaction it expresses at their ultimate judgment in the matter. Provision has been made for carrying out fairly the commutation of Seigniorial rights; and additional restraint has been placed on the power of borrowing conferred on the Municipalities. The views of the Legislature have been expressed respecting the Hudson's Bay Territory. The Addresses to Her Majesty relative to the postal subsidies, and to the duties on Canadian produce shipped from foreign ports, have been forwarded. In the amendment of the Tariff, he regrets the necessity for increasing some of the duties, but hopes that the principle on which they are imposed will alleviate their pressure. The increasing income of the Province in the first quarter of the current year, indicates the revival of trade. The arrangements with reference to the public debt, will doubtless prove advantageous. The Supplies shall be expended with strict economy and care. The Revision of the Statutes of U. Canada, and of United Canada, is now completed. The Legislature have invited a visit from Her Majesty and any Member of the Royal Family; in no part of Her Dominions would such a visit be hailed with a more affectionate loyalty, 594.

I. Speeches of the Governor General, &c.—*continued.*

(1860.)

15. *28th February, 1860.*—His Excellency announces the intention of H.R.H. the Prince of Wales to visit Canada. Negotiations have been carried on for securing to the Canadian line of Steamers a portion of the European and American mail; and the claims of Canada with reference to Postal Subsidies to Ocean Steamers have been represented to the Imperial Government. Bills will be submitted, for the settlement of the boundary line between U. and L. Canada, for the consolidation of the Municipal Law of L. Canada, and for facilitating the administration of the Crown Lands. The Consolidated Statutes of Canada, and those for U. Canada, have been issued, and those for L. Canada will soon be completed. The subjects of the Law of Debtor and Creditor, and the system of Currency and Banking, deserve early and serious consideration. The income and expenditure of the past year promise well for the future. Papers concerning the measures taken for the consolidation of the Public Debt will be transmitted. A provision for the Queen's Service is asked; and the Public Accounts will be submitted without delay. The abundant harvest of last autumn, and the signs of a revival of commerce, are a cause of thankfulness. Few subjects of a broad and important character yet remain to be dealt with by immediate legislation, 3.
16. *19th May, 1860.*—The prosperity of the country is reviving. The measures adopted for extending the trade and facilitating the free navigation of the St. Lawrence, will (though involving some sacrifices) tend to increase our resources. The establishment of a free port at each extremity of the Province will promote settlement, and greatly benefit the Gulf fisheries and the mining interests of the Upper Lakes. The destruction of the last remnants of the Seigniorial system,—the provision for the payment of juries in L. Canada from local funds,—and the completion of the system of land Registrations, will assimilate yet further the laws in force in either Section of the Province. His Excellency refers with satisfaction to the completion of the Consolidated Statutes for L. Canada,—the consolidation of the Municipal Law of L. Canada,—the amendment of the Common School Law of U. Canada,—and the (reserved) Bill for the future administration of Indian Affairs by the Provincial Government. He congratulates the Assembly on the successful steps taken for consolidating the Public Debt, and thanks them for the Supplies. The reception to be given to the Prince of Wales will shew the warmth of those feelings which dictated the Address of last Session, and the loyalty which animates the people of Canada, 471.

(1861.)

17. *16th March, 1861.*—His Excellency congratulates the Legislature on the abundant harvest, and the symptoms of reviving commercial prosperity. Her Majesty has acknowledged the loyalty with which H.R.H. the Prince of Wales was welcomed to Canada on his visit in 1860. The Consolidated Statutes for both U. and L. Canada have been promulgated; and an assimilation of the law which prevails in either Section is now to be desired. Measures are recommended for consideration, in relation to the administration of Bankrupt Estates, changes in the Criminal Law, the establishment of local Penitentiaries, and the registration of Judgments in Upper Canada. The Report of the Commissioner of Crown Lands will shew that the receipts have increased, and that great efforts have been made to settle the waste lands. A writ of the Court of Queen's Bench in England having been served in this Colony, His Excellency has represented to Her Majesty's Government the expediency of preventing any conflict of jurisdiction. It is needful also for the Colonial Legislature to define the nature and extent of the law and custom of Parliament in Canada. The Public Accounts will be found satisfactory; and they will shew that the reception of the Prince of Wales, though worthy of the occasion, was conducted with a due regard to economy. He asks for the usual Supplies, 9.
18. *18th May, 1861.*—His Excellency refers to the amendment of the Criminal Law and other measures of the Session; and congratulates the country on the increase of its Exports and Imports. He thanks the Assembly for the Supplies. He alludes to a deep affliction which Her Majesty has suffered, in the death of Her Royal Mother, the Duchess of Kent, and announces an expected visit to Canada by H.R.H. Prince Alfred, 383.

(1862.)

19. *21st March, 1862.*—His Excellency (Lord Viscount Monck) adverts to the loss sustained by the Nation at large in the death of the Prince Consort. Refers to the opportunity afforded the people of this Province, during the past autumn and winter (on the occasion of the outrage on the British Steamer "Trent") for exhibiting their loyalty and patriotism, which has been fully appreciated by Her Majesty. Congratulates the country on the abundant harvest, and on the continuance of a satisfactory condition of our trade, notwithstanding the civil war in the United States. The French Government has extended to Canadian built

ships the privileges in French ports, already enjoyed by ships of British build. A conference has been held with delegates from New Brunswick and Nova Scotia, in reference to an Inter-colonial Railway, and a delegation has proceeded to England to open negotiations with the Imperial Government. A bill is about to be introduced into the Imperial Parliament, to abolish the power of the Superior Courts in England to issue the writ of *Habeas Corpus* into this and other Colonies. Measures will be submitted to the Provincial Legislature, for the administration of Bankrupt Estates in U. Canada, and for the establishment of well regulated Gaols and local Penitentiaries. A Commission has been issued on the subject of an improved organization of the Militia, and a bill will be submitted for carrying into effect the recommendations that may result from the inquiry. The Public Accounts and Estimates will be submitted,—the latter being framed with all the economy consistent with efficiency. He concludes by acknowledging the good will and kindness shewn to himself on assuming the Government, 4.

20. 9th June, 1862.—His Excellency remarks that circumstances (involving a change of Administration) have prevented this Session from being as fertile in public Acts as previous Sessions have been, but much private business has been completed. In making an increased provision for a Volunteer Force, the Legislature has given its assent to the principle, that the Defence against foreign invasion is a duty incumbent on the inhabitants of Canada. He expresses his thanks for the provision made for the Public Service, 366.

(1863, February Session.)

21. 13th February, 1863.—His Excellency congratulates Parliament on the loyalty and activity displayed by the Volunteers and Drill Associations, in rendering themselves efficient for active service. A bill to amend the Militia Law will be submitted, also, measures for the more fair adjustment of Parliamentary Representation in each Section of the Province,—for the relief of Insolvent Debtors,—and respecting the Administration of Justice, the Registration of Titles, and the Patent Laws. A Commission was appointed, to inquire into the expenditure on the Parliamentary Buildings at Ottawa, whose Report has been recently received, and steps have been taken for the resumption of the works. Members of the Administration visited London, during the Recess, with co-delegates from the Sister Provinces, respecting the construction of an Inter-colonial Railway: The correspondence on this subject will be communicated. They also called the attention of the Imperial Authorities to the importance of opening up for settlement the great North-western Territory. The Public Accounts will be submitted, and the Estimates, which have been framed with the strictest regard to economy. Commissioners have been appointed to inquire into the condition of every branch of the Public Service, especially in relation to the audit of accounts, and the payment of public moneys. The large contributions from the Province for the relief of the distress in the Manufacturing Districts of Great Britain, will serve to strengthen the kindly ties between Canada and the Parent State, 7.
22. 12th May, 1863.—The course of events has shewn that the public business cannot be satisfactorily conducted under the existing conditions of the Legislative Body, two successive Administrations having failed, within the last year, to secure the confidence of the Assembly,—He therefore prorogues Parliament, with a view to its immediate dissolution. The pressing importance of various public questions, demands that no time shall be lost in convening a new Parliament, 334.

(1863, August Session.)

23. 14th August, 1863.—His Excellency has called Parliament at this unusual season, because he desired to obtain their advice as soon as was practicable after the dissolution of the last Parliament. Legislation is invited in reference to the Militia, the Volunteer Force, the relations between Debtor and Creditor, the Administration of Justice, the Registration of titles, Patents for inventions, and the encouragement of Agriculture. The last Session having abruptly terminated without the grant of the usual Supplies, he has been obliged to authorize advances out of the public chest for certain indispensable charges: Statements of these advances will be submitted, together with the Estimates for the year. He urges on their attention the state of the public finances; for some years past the expenditure has exceeded the annual income, and a strenuous effort should be made to avert the continuance of this deficiency. A correspondence with the Agent of the Atlantic and Pacific Transit and Telegraph Co., will be submitted, in reference to a proposal for the establishment of a telegraph and postal communication between Lake Superior and British Columbia. He congratulates the country on the prospect of an abundant harvest, 22.
24. 15th October, 1863.—His Excellency congratulates the Legislature on the unanimity which has marked their

deliberations on the Defences of the Province, and on the readiness with which the Militia and Volunteer Bills have been passed; and thanks the Assembly for the Supplies. It has been impossible to submit, during this brief Session, all the measures prepared for consideration, he will therefore again convene Parliament at the ordinary period of the year, 295.

(1864.)

25. 19th February, 1864.—His Excellency has taken steps for carrying into effect the Acts for the organization of the Militia. The period is approaching when, by the terms of the Reciprocity Treaty, notice for the determination of its provisions may be given by either party. Measures will be submitted for the improvement of our inland water communications, and for facilitating the navigation of the River Ottawa. Arrangements are in progress for the survey of the route of the Inter-colonial Railway. A correspondence has been opened with the Imperial Government, in reference to the definition of the boundaries of Canada towards the North-west. The progress of the Public Buildings at Ottawa justifies an expectation of an early removal thither of the Seat of Government. The recent discoveries of Gold and other ores call for legislation with reference to Mines and mining rights. A more efficient system is needed for investigation into cases of Shipwreck affecting the reputation of our marine service. A new contract for Ocean Mail Service has been entered into. Attention is called to the state of the laws relating to Parliamentary Elections, Insolvency, Administration of Justice, the encouragement of Agriculture and the Fisheries, the Registration of titles to land, and the granting of Patents for inventions. The Public Accounts and Estimates will be submitted. The Revenue of the year has exceeded the Estimate of last Session, nevertheless there was a large excess of expenditure over income; and measures will be submitted calculated to equalize the annual revenue and expenditure, 2.
26. 30th June, 1864.—His Excellency congratulates the Legislature on the large number of important measures that have been passed, and refers specially to the Acts relating to Insolvency, the Audit of Public Accounts, the Gold Mining regulations, the Jury system of L. Canada, and to other measures of Law Reform. He is convinced that the system of taxation adopted will lead to an equalization between the Revenue and the Expenditure within the next year, and to improve the credit of Canada abroad. The provision for the Militia and Volunteer Forces will tend to improve their efficiency. The Assembly are thanked for the Supplies. The large number of Private Acts passed are proofs of the growth of commercial and manufacturing energy. He is glad to see that provision has been made to complete the survey of the Inter-colonial Railway. The time has arrived for the settlement of a Constitutional question which has for many years agitated the Province; His Excellency will endeavor, in conjunction with his Ministers, to devise a plan for this purpose, which will be laid before Parliament next Session, 508.

(1865, January Session.)

27. 19th January, 1865.—His Excellency offers his congratulations on the continuance of prosperity and peace. Outrages having been committed on the territory of the United States, the perpetrators of which sought refuge on Canadian soil, a system of detective police, and a Volunteer Force, have been established on the frontier. The Executive require to be armed with stronger powers, to prevent a recurrence of these outrages. The Codification of the Civil Law of L. Canada has been completed, and the Code of Civil Procedure is in a very advanced state. The unforeseen expenditure connected with the Volunteer service, will necessitate a supplementary vote. The results of the financial legislation of last Session are satisfactory; the Trade and Revenue have largely increased. The Conference of delegates from the various Provinces of British N. America, held since last Session, arrived at the conclusion that a Federal Union of these Provinces was feasible and desirable, and the project has received the cordial approbation of the Imperial Government: A series of Resolutions will be submitted to the Legislature, embodying a plan of Constitution for the proposed Union,—upon the adoption of which, a bill to give effect to the Union will be introduced in the Imperial Parliament by Her Majesty's Ministers, 8.
28. 18th March, 1865.—His Excellency rejoices to congratulate the Legislature upon having laid the foundation for a more intimate Union of the British N. American Provinces, and on the sincerity and earnestness with which they adhere to the policy of Her Majesty in relation to foreign countries. He thanks them for the provision made for the Public Service, and also for the permanent Defence of the Province. A Deputation from the Government of Canada will proceed to London to confer with H.M. Ministers on questions of great importance to the Colony; and upon their return, the result of their mission will be laid before Parliament without loss of time, 258.

I. Speeches of the Governor General, &c.—continued.

(1865, August Session.)

29. *8th August, 1865.*—His Excellency has convened the Legislature at the earliest convenient time, to receive the Report of the Deputation from the Canadian Ministry who proceeded to London, after the close of last Session, to confer with H.M. Ministers on questions of importance to the Province. The happy termination of the civil war in the United States, will operate beneficially on the commercial and manufacturing interests of this Province. The Volunteer force have been recalled from frontier service; their good conduct, and ready response to the call of duty, has given great satisfaction to His Excellency. The Estimates for the year will be submitted, with a statement of the expenditure chargeable against the vote of credit of last Session. The reply to the Address to Her Majesty in favor of a Federal Union of the British N. American Colonies will be communicated. He trusts that a mature examination of the project will induce the Legislatures of the other Provinces to sanction this measure of Imperial policy, which has been twice noticed with approbation in Her Majesty's Speeches from the Throne, 1.
30. *18th September, 1865.*—His Excellency refers with satisfaction to the Codification of the Civil Law of L. Canada, and the Acts for abolishing the punishment of Death in certain cases, for the improvement of the Registration system, and the Grammar School Law of U. Canada. He thanks the Assembly for the provision made for the Public Service, and congratulates the Legislature upon the abundant harvest, 276.

(1866.)

31. *8th June, 1866.*—His Excellency trusts that in the magnificent Parliament Buildings at Ottawa, the Legislature will find increased facilities for the despatch of public business. After last Session, a Council of Trade was convened, including representatives from the different Provinces of British N. America. Their proceedings will be communicated. The termination of the Reciprocity Treaty with the United States will render it necessary to open new markets for our produce. Delegates from these Provinces have visited the West Indies and Brazil, with the view of extending our commercial relations with those countries. The threats of the "Fenians" in the United States, to attack Canada, necessitated the calling out of a large Volunteer Militia Force, who have compelled the invaders to make a precipitate retreat. His Excellency has received the unremitting support of the military and naval commanders, with their forces, and the President of the United States has issued a Proclamation, requiring all officers of his Government to aid in repressing infractions of the neutrality laws. The measures adopted by the Provincial Government have involved a large expenditure not provided for by law, for which a Bill of Indemnity will be required. Recent occurrences render it necessary to take measures, such as have been taken by the Imperial Parliament, for a temporary suspension of the writ of *Habeas Corpus*, and also to extend to Lower Canada the Act to protect the inhabitants of Upper Canada against lawless aggressions from foreign countries. The Civil Code of L. Canada will come into operation on 1st August next. The Code of Civil Procedure of L. Canada will be submitted for adoption. The Public Accounts and Estimates will be submitted, and it will be seen that the Revenue has been largely in excess of the estimated amount. There is reason to believe that the Union of the British N. American Provinces will soon be effected, and that the next Parliament assembling here will embrace the Representatives of all the Colonies. The general prosperity which pervades all classes of the community in the Province, is a subject of congratulation, 3.
32. *15th August, 1866.*—His Excellency congratulates the Legislature on the large amount of important business transacted, and refers especially to the completion of the Code of Civil Procedure in L. Canada, the Municipal and Assessment Acts for U. Canada, and the changes in the Tariff. The successful completion of the Atlantic Telegraph has been hailed in Canada with feelings of the utmost satisfaction. He thanks the Assembly for the Supplies, and for the provision made for the public defence, and for the compensation of those who have suffered in person, or by the death of relations, in consequence of the Fenian invasion. He rejoices at the completion (on the part of Canada) of the plan for the Union of the British Provinces, and congratulates Parliament on the retrospect afforded by the events of the last 25 years, since the Union of the two Canadas, 387.
